2025/10/27 09:00 1/2 IPv6 Deployment Workshop

# **IPv6 Deployment Workshop**

Date: 12th to 16th January, 2019

• Venue: Namgay Heritage Hotel, Thimphu, Bhutan

### **Workshop Goals**

This five-day IPv6 Deployment Workshop, teaches network operators how to deploy IPv6 on their network infrastructure.

# **Target Audience**

Technical staff who involved in Internet technology standards, local and national network infrastructure deployment, and day to day network operations.

### **Pre-requisites**

It is assumed that the workshop participants know how to use a router command line interface, do basic router configuration and have a working knowledge of an IGP (OSPF or IS-IS) and BGP fundamentals. Knowledge of the IPv6 protocol is helpful but not essential.

**This workshop is not an introduction.** The lab exercises use Cisco IOS configuration syntax.

**Participants are required to bring their own laptops.** These can be Windows/Linux/macOS and must have working wireless to allow participation in the hands on lab exercises.

#### **Class Size**

The workshop can accommodate up to 30 participants
